We are a group of socially responsible young people; we organize free developmental programs to promote youth life development. We are committed to investing our resources (money, time & wisdom) into teaching teens and young adults to make decisions and lead themselves to making choices to do the right things at the right times.

We love to COLLABORATE (with individuals & organizations) to create positive opportunities for **learning, leadership & fun** for teens & youth!

MyDreamConnectMIX: Fun Activities/Life Skills For PSYCHOSOCIAL COMPETENCE

We are aware that **moral decadence** amongst youth has reached a **worrisome state** that all stakeholders championing causes for development are in the search for possible solutions. Just like some others, we believe that a considerable proportion of delinquency among youths stems from **misuse of leisure time**.

And we have observed that today's youth (most especially teenagers) are less respectful; less obedient and less willing to live in harmony, they engage time in pilfering to drug abuse that is graduating into the act of violence, suicide, robbery, sexual abuse and rape in recent times.

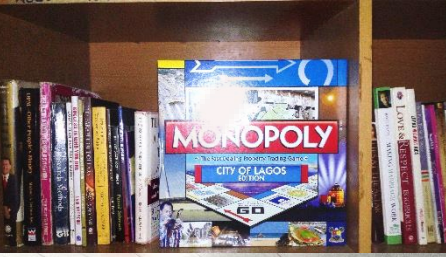

MyDreamConnectMIX: Fun Activities/Life Skills for PSYCHOSOCIAL COMPETENCE

Psychosocial competence is a person's ability to deal effectively with the demands and challenges of everyday life. It is a person's ability to maintain **a state of mental well-being** and demonstrate this in an adaptive and positive behavior, while interacting with others and his / her culture and environment.

In addition to the fact that *engaging in fun activities provide students with safety valve for **letting off excessive energies**, which ordinarily could have been mischievously channeled towards acts that damage the mind, we want them to expand their understanding of **self-discipline and control, obedience and cooperation**.*

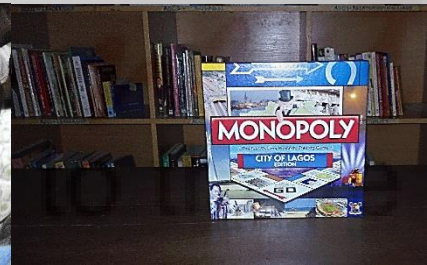

We are very much aware of the fact that at each of life stages, people face a crisis in which a task must be mastered. ***Those who successfully complete that stage emerge with a sense of mastery and well-being.*** Those who do not resolve the crisis at a particular stage may struggle with those skills for the remainder of their lives.

MyDreamConnectMIX: Fun Activities/Life Skills For PSYCHOSOCIAL COMPETENCE

The rules and regulations from every of our engagement with them could **be absorbed as lifelong habits**; as good character and good behavior learned during every activities engaged in can be transferred from the learning community to the society at large.

MyDreamConnectMIX: Fun Activities/Life Skills for PSYCHOSOCIAL COMPETENCE

We are **seeking your support** to achieve our objective of coaching teenagers to become psychosocially competent youth, able to build quality lifestyle for their own good and that of the 'community' they belong to.

So far, we have reached out to more than 1,500 & still counting
